

DPU063020WATERMETERS

Bullet Points

- **Sensus Meters has been selected as the best meters for the AMI/AMR project. These meters are necessary to begin the deployment phase of the AMI/AMR project that will begin in the next few months.**
- These meters will allow for two-way communications that has not been previously possible for the Utility, and will support and vastly improve the Utility's ability to provide monthly reads for billing purposes.
- Sufficient funds are available within the 2020 Utilities Capital Improvement Program and the 2020 Operating Budget.
