

JEFFERSON and 16TH EMERGENCY REPAIR

Bullet Points

- The existing 24” sanitary sewer on Jefferson and 16th located under the AT&T vault had collapsed. Due to the existing utilities, open cut was not possible so a contractor had to tunnel a new pipe in. Edward Kelly & Sons was hired to perform the sewer work.
- Funds for this expenditure are available within the Sewer Replacement Fund appropriated through Ord. 249-21 for the 2021 Various Sewer Replacement Program.
