| | 2243 | 2003 | \$16,543.89 | \$297,790 |
| | | Total | | \$173,247.76 |

- Requesting to purchase five (5) Elgin Pelican sweepers which are the same as the current fleet and one (1) Elgin Regen-X sweeper. The Regen-X sweeper is new to SB&H and will be used downtown and on street repair projects
- Elgin Pelican sweepers are a mechanical sweeper - meaning they use brooms to push and pick up dirt and garbage
- Elgin Regen-X sweepers are a regenerative air sweeper which means it uses a vacuum to pick up finer material. This sweeper is best used when small particles need to be picked up for projects such as crack sealing or seal coating
