To whom this letter may concern,

My previous years of experience entail classroom management, caseload management, community engagement and outreach coordination, facilitating meetings and trainings among other things. I have 7 years of classroom teaching experience, 2 years of caseload management of which underwent numerous periodic federal reviews as well as a combined 9 years of community partnering. I have referred families to community resources and provided assistance to parents and families to reconstruct and rebuild their lives.

In all my efforts, my only desire has been to see a change in my community and those within it. I firmly believe that positive impact can be made and lives can be changed. With great people together, whether directly or indirectly we can pilot changes and improvement and I believe I would be a great and vibrant asset to this process. Ultimately, it is the way we use our voices and position to do so.

Furthermore, it is my hope that this finds you well, that we may converse further a vision of productivity and growth. Have a blessed day.

Sincere regards,

Karen Hayes
