

DPS 2021 SB&H BLIGHT EQUIPMENT PURCHASE \$195,700 BULLET POINTS
August 17, 2021

- Bobcat MT100 Mini Track Loader – This request / purchase is for one (1) mini skid steer type loader that the operator stands behind to operate. This loader is narrow and compact so it can fit into tight spaces such as into backyards or through fence gates. Blight cleanup crews will utilize this equipment to help them pick up large piles of debris.
- Volvo L35GS Loader – This request / purchase is for one (1) Volvo L35GS Loader that blight crews will use along with a packer truck to pick up large piles of debris and furniture that are too heavy and dangerous for a person to handle. SB&H currently has three (3) of these loaders. Two (2) are used in Alley Cleaning with the third already being used in Blight Cleanup.
- Case SR240B Skid Steer – This request / purchase is for one (1) Case SR240B Skid Steer that will be used within the Blight Cleanup Team. This piece of equipment is small and easy to trailer so crews can respond to a cleanup quickly. The Blight Team is currently using a skid steer that SB&H already had but is normally used in street repairs. Once this skid steer is purchased for blight the one they are using will go back to street repairs.
- Skid Steer Trailer – This request / purchase is for a tilt trailer that will be used to haul the above skid steer to the job sites.
