

## **DPS 2021 SB&H STREET EQUIPMENT \$107,760**

- Equipment to be purchased with SCM&R funds that are in the 2021 budget
- The City of Toledo publicly advertised for bids for the purchase of crack sealing machines
- SealMaster was determined to be the lowest and best bidder with a total bid price of \$107,760
- Street maintenance is primarily performed through the use of crack sealant and crack sealing machines
- Crack sealing is the most efficient way to provide maintenance to streets at the lowest cost of any method and can extend the life of a roadway for several years before major work is required
- The purchase of the crack sealing machines will supplement an existing crack sealing machine that will be utilized extensively as SB&H continues to expand its role with preventative maintenance on Toledo's streets through the Patch & Seal and Crack Sealing Programs
