

WHEREAS, the “SMART Analysis” is a expenditure of ARPA funds will be critically reviewed. The SMART Analysis include an evaluation and demonstration of the following:

- Sustainable in that it meets the City’s current and future ability of future generations to meet their needs
- Meets White House/US Treasury Guidelines
- Accountable so there is justification for the City of Toledo to perform that activity, and the City will report on the status and outcome of the activity
- Return on Investment so there are specific metrics to measure the expenditure of federal funds that are qualified for federal collaboration to minimize cost and maximize impact
- Transparent in that the who, what, how, when, and where of the activity is clearly defined

a tool by which the appropriation and
viewed financially. The elements of the SMART
on that the proposed use of APRA funds is/have:

current needs without compromising the economic
own needs;

ines;

he use of the funds, a clear responsibility of the
nd an identified responsible person or party who
the use of these funds;

ic and measurable results linked to the
ntitative, qualitative or both, and we have sought
nize outcomes;

when and where of each dollar spent is clear; and

SMART Analysis

Proposed ARPA Program or Project:	Traffic calming devices for Vision Zero Program
Program or Project Description:	Purchase of traffic calming devices such as speed humps, speed tables, and flexi posts to control traffic.
Proposed Amount:	\$ 130,000

SMART Analysis Element	
Sustainable	The purchase of these devices will increase community safety on Toledo's streets and in Toledo's neighborhoods by upgrading the street infrastructure.
Meets Guidelines	These devices will increase community safety on Toledo streets and in Toledo's neighborhoods by providing safe, healthy, and equitable mobility. ARPA guidelines allow communities to use funding to make investments to build strong, healthy communities through neighborhood investments. This will focus on traffic and pedestrian safety features in qualified census tracts. Please see attached US Treasury guidelines.
Accountable	A City Representative is on site during installation to ensure quality of work.
Return on Investment	These traffic calming devices will improve mobility and provide safer access for travel to and from work, parks, shopping areas, schools, and transit stops. Competitive bids have been sought in order to minimize the cost of these devices.
Transparent	The use of public bidding procedures and the City of Toledo purchasing policies and procedures provides transparency of the use of the funding.
