

616 Baldwin Emergency Sewer Repair Contract

Bullet Points

- Purpose: Pays for the Emergency Repairs of the Sanitary Sewer at 616 Baldwin.
- Background:
 - Sanitary Sewer Main No. 1012 has collapsed in the R/W and requires repair. The main runs between two houses and two garages with no room to excavate.
 - We must line this main in order to alleviate the problems.
 - There are breaks at 78' and 126' from MH# 6244 headed north to MH# 6243.
 - We asked for three quotes, with two companies declining to do the work (Drain Doctor & E & K Contractors) Innovaliner Inc. submitted the lowest and best bid at about \$22,000.
- This Ordinance is required to generate the contract that is required by TMC to pay for the repairs.
