

DPS 2021 SB&H SCMR BRIDGES AND HARBOR OPERATIONS EQUIPMENT
\$99,600

- Avant Loader w/ Attachments – This request / purchase is for one (1) Avant mini loader with attachments. This loader will be used within the Bridges & Harbor section at Streets, Bridges & Harbor for maintenance purposes on city bridges and the levee systems. Maintenance items may include but not be limited to digging, grass cutting, clearing of snow and moving materials in small areas. This loader is small and articulates in the middle making it ideal to work in tight spots. Currently, the Bridge section borrows a small loader from another division but this has been creating scheduling conflicts. Also, with this loader it is more versatile because it has many different attachments available.
- Attachments include:
 - 50.4” Straight Edge Bucket
 - 47.2” XHD Pallet Forks
 - 50” V-Snow Plow
 - 42.3” Snow Blower
 - 59” Bucket Broom
 - Sand / Salt Spreader
 - 57.1” Cutting Bar
 - S30 Flail Mower
 - Hydraulic Side Arm for Flail Mower
 - Stone Grabber
 - DG3DSS Auger Driver
 - Winch
- Alta Equipment is giving the city a municipal discount of 12% off retail
