CITY OF TOLEDO BOARD OF ZONING APPEALS - MEETING NOTES

HEARING DATE: Monday, May 19, 2025	BZA NO: BZA25-00020	APPLICANT: Lucas Carpenter
SITE LOCATION: 760 Yondota St	ZONING DISTRICT: 10-RD6	SWO OR NOL ISSUED: N/A

TMC CODE:	1107.1906
CODE DESCRIPTION:	<p>Off-street parking and loading spaces, parking lots, maneuvering areas, aisles and driveways must be surfaced with concrete, bituminous asphalt, or other dust-free material other than gravel or loose fill, and be graded to drain all surface water towards the interior of the parking lot, or to a stormwater system subject to the regulations and approval of the Department of Public Utilities.</p> <p>A. An internal storm drainage system must be provided and connected to the nearest outlet, subject to the regulations and approval of the Department of Public Utilities.</p> <p>B. All off-street parking, loading and other vehicle circulation areas must be graded and continuously maintained and designed to preclude free flow of stormwater across or onto adjacent lots, properties, or streets.</p> <p>C. Concrete curbs may also be required as part of the overall drainage design for all or part of the parking lot or driveway perimeter.</p> <p>D. The Planning Director may authorize all or a portion of required off-street parking spaces (not to include drive aisles) to be provided on permeable/porous surfaces. A permeable/porous parking area shall be maintained by the property owner for its intended function for the duration of its life.</p>
ANALYSIS:	Applicant requests variance of driveway.

CONDITIONS OF APPROVAL

To whom it may concern,

It is my hope that this letter helps explain our intention and use of the gravel driveway located at 760 Yondota St. Toledo, Ohio 43605. This property is used solely as a large garden and orchard that myself and my immediate family established and maintain. Attached is three color photos as well as a sight plan with measurements and the location of the driveway.

Prior to my purchase of the property the city of Toledo used the land as a staging and dumping ground. At that time the city brought in stone and put in a gravel driveway where a previous driveway had been (the skirt/approach was still in place). After I purchased the property I simply freshened up the driveway with stone sourced from a local quarry. I sourced this stone specifically to prevent dust when the driveway is used.

The driveway on the property is used very rarely and is used to store the equipment used for the garden. I park two vehicles (a dump truck and farm truck) and a landscape trailer on the driveway. These trucks and trailer are only moved when product (such as wood chips, compost, soil, mulch and logs) are brought in, or when trimmings from the orchard or plants are hauled out.

The driveway is also in a great location as far as neighboring properties go (please see the sight plan attached for the location). The adjacent property to the north is a vacant lot, across Yondota (to the east) are vacant and dilapidated houses, across Navarre (to the south) is my property and across the alley (to the west) is vacant lots and a neighbor who shares the love for gardening.

It is my hope that this letter, sight plan and photos gives you a better understanding of what our intentions and uses are for the driveway. It is essential to the function and ease of maintenance to the garden.

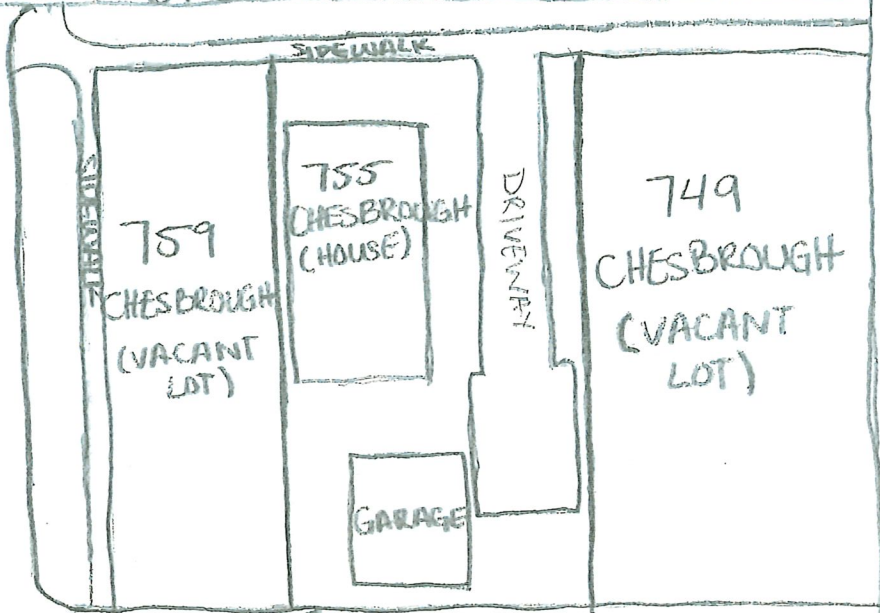

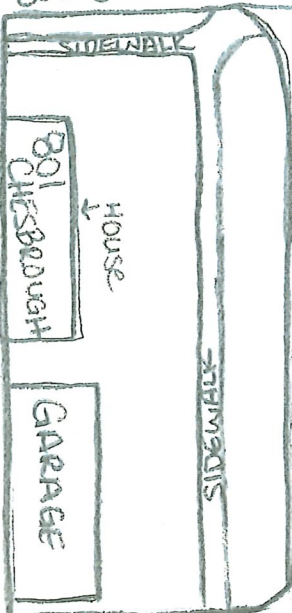

Respectfully,

Lucas Carpenter Sr.
