Director Amy Sackman Odum was not included among the list of directors to be confirmed in this legislation. Her name was withheld so council may first be provided with legislation needed to create the new department - Neighborhoods and Business Development, which as you know is a merger of the Neighborhoods and Economic Development departments.

The administration is in the process of writing legislation that will be sent to council authorizing the new department and addressing all name changes that must be made to our municipal code.

Subsequent legislation to confirm Ms. Sackman Odum as the director of that department will be sent to council.

Your confirmation of these appointments would be appreciated.

Sincerely,

Wade Kapszkiewicz
Mayor
