**RE: Special Use Permit - Scrap and Salvage Facility at 2351 Hill Avenue, Toledo, Lucas County, Ohio
(SUP-9003-21)**

Dear Mr. Cherry:

On April 13, 2022, Toledo City Council, Planning and Zoning Committee reviewed, and sent as approved a Special Use Permit (SUP) for a Scrap and Salvage Facility for a site located at 2351 and 2341 Hill Avenue, in Toledo, Lucas County, Ohio. The SUP, subject to forty-seven (47) conditions, was approved by Mayor Wade Kapszukiewicz on April 26, 2022.

Ferrous Processing & Trading Co. (FPT) retained an engineering consulting firm that is currently working on the site and stormwater design and will be submitting plans and permit applications to address the conditions in the SUP. Because of the timeframe needed to complete the final design, consistent with condition number 45 in the SUP approval and TMC§1111.0707, we are formally requesting a 6-month extension of the approval. We anticipate submitting plans and permit applications no later than October 26, 2023.

Thank you for considering this request.

Sincerely,

Lisa Carroll
Environmental Director
Ferrous Processing and Trading
