

5315COLLOMOREEMERGENCYREPAIR

Bullet Points

- This ordinance is necessary to ensure health and safety to the residents and restore the habitability of the home. The home had chemical and water contamination, broken windows, and damage to the walls of the kitchen and bathroom and this current one has caused by the electric pole and transformer.
- Due to the contamination, as well as the extent of the numerous repairs, the Division of Facility & Fleet was called in to work with a contractor Cousino Restoration to perform the remediation and cleanup work, as well as repair the roof, windows, kitchen and bathroom walls.
- Toledo Edison has removed and replaced the damaged electrical poles, transformers, and electrical lines.
