Subject: Angola Road

Good afternoon!

This is just to follow up regarding your site visit on June 17. We applied chloride to the road and committed to more manpower for water truck activity. Also, as we discussed, we contracted with Pro Sweep for sweeping Angola each day 4 hours per day, to sweep and pick up any materials tracked onto Angola, until the project completion.

If you have other requirements or require further action on my part, please feel free to call me or email me and we will do whatever is asked.
