

**LEAD SERVICELINE REPLACEMENT GRANT
PROGRAM BULLETS**

- Ohio Water Development Authority (OWDA), grant for \$2,000,000 into the Water Replacement Grant Fund for the Lead Service Line Replacement Project.
- The Water Distribution crews will replace the existing lead service line within the right-of-way (from water main to property line).
- The Water Distribution crew will verify the existing house line material. If the existing houseline is verified to be replaced, notification will be sent to the contractor. The contractor will be required to replace the existing house line from the curb box to the house, into the house, and tie into the existing service meter.
- Upon final approval, the contractor shall then perform all surface restoration for the service line and house line work.
