## Golden Rule Sails Again for a Nuclear-Free World!

In 1958 four Quaker peace activists sailed the *Golden Rule* toward the Marshall Islands in an attempt to halt nuclear weapons testing. The US Coast Guard boarded her in Honolulu and arrested her crew, causing an international outcry.

Arrest of the crew and rising awareness of the dangers of radiation led to worldwide demands to stop nuclear testing. This spurred the U.S., the U.S.S.R. and the U.K. to sign the Limited Nuclear Test Ban Treaty of 1963.

In 2010 the *Golden Rule* sank in Northern California. For five years, dozens of Veterans For Peace, Quakers and other volunteers restored her.

### Nuclear Abolition Mission Restored!

From 2015 - 2022 the *Golden Rule* sailed the West Coast between British Columbia and San Diego and to Hawai'i and back.

The Golden Rule Project has given hundreds educational presentations about nuclear issues and led many peace flotillas. Thousands of people visited the *Golden Rule* during four wooden boat shows.

**The *Golden Rule* now sails for a nuclear-free world  
and a peaceful, sustainable future.**

## The Great Loop Voyage

From September 2022 through December 2023 the *Golden Rule* is sailing "The Great Loop". Starting in the Minneapolis / St Paul area, she sailed down the entire Mississippi and TenTom River System, along the Gulf states, to Cuba and back, and is headed up the east coast to Maine, through the Hudson River and Erie Canal, around the Great Lakes, and down the center of the country back to the Gulf of Mexico.

This 15-month voyage will take the *Golden Rule* into 100 towns and cities and cover 11,000 miles.

Along the way, *Golden Rule* representatives will speak to many groups about how their actions can bring about nuclear disarmament and stop the possibility of nuclear war.

In this time of war, bringing hope through action is a great antidote to the fearful messages that governments and media spread.

*Golden Rule* events also highlight local environmental, climate change and peace & justice issues by giving others a chance to speak and connecting their issues to the need to stop all war.

## Veterans For Peace Nuclear Posture Review

In anticipation of President Biden's Nuclear Posture Review, Veterans For Peace has released a "correct posture" that would bring about safety from accidental or intentional nuclear war. It presents a sane US position with respect to other nuclear nations - a posture of all-out cooperation instead of full-spectrum dominance. [tinyurl.com/VFP-NPR](https://tinyurl.com/VFP-NPR)
