Re: Downtown Toledo Improvement District Inc. (DTID)

The Downtown Toledo Improvement District Inc. asked its property owners to sign a petition to the Mayor and the Council of the City of Toledo stating their continued support of DTID. Over 83%, as measured by the front footage owned, of the property owners have signed petitions showing their support. This is well above the 60% required by the Ohio Revised Code 1710. According to ORC 1710, DTID is requesting that the Mayor and Council review and approve the continued existence of DTID.

Roberto Martinez and I have worked together to confirm each parcel's owner, front footage and value of the land and/or building. He and Paul Syring are knowledgeable in the process and can assist you.

If you have and questions, please feel free to contact me.
