

DPS PENN 7 Wetland Restoration - \$9,975

March 24, 2020

- The Penn 7 Project funding originally allocated \$12,500 out grant funds to be used for City of Toledo administrative expenses
- Contractual expenses for Design and Engineering came in over budget, requiring monies to be temporarily reallocated for that purpose. Those additional dollars were taken temporarily from the amount originally allocated to the City of Toledo
- This \$9,975 is an additional sum of money that is granted to the City of Toledo to cover that temporary redistribution of funding
