

Sodium Fluorosilicate Emergency Purchase Bullet Points

- The current contract has expired. An RFP was submitted with only one bidder responding that was non-conforming.
- The 2 most current vendors, Sal Chemical and Bonded Chemical, who are suppliers of fluoride, were unable to guarantee a bid price for the term of a contract.
- We have negotiated with Sal Chemical to provide “drop shipments” on an emergency basis with competitive pricing.
- Emergency procedures were followed with notifications to the Purchasing Commissioner and Director of Public Utilities to complete this purchase.
- A purchase order is awaiting approval upon passage of this legislation. It is PO #45-00129325.
- The total purchase price for this fluoride, with fuel surcharge is \$21,671.05.
