MRO-2-23	-	Maumee River Overlay for modifications to a major utility (PC approved 9/14/23).

Applicable Plans & Regulations

- Toledo Municipal Code (TMC), Part Eleven: Planning and Zoning Code
- Toledo 20/20 Comprehensive Plan

STAFF ANALYSIS

The Division of Water Reclamation is requesting a Zone Change from RS6 (Single-Dwelling Residential), IL (Limited Industrial), & IG (General Industrial) to IG (General Industrial) for 3900 Summit Street. The request is to accommodate future improvements to the Bay View Water Reclamation Facility. To the north of the site is Detwiler park and golf course, and a yacht club. To the east of the site is a marina, US Naval Reserve Center, and the Maumee River. To the south are additional reclamation facilities, single and multi-family homes, a marina, and the Maumee River. To the west are apartments.

STAFF ANALYSIS (cont'd)

The Division of Water Reclamation is in the process of a plant wide improvement program to upgrade various portions of the Bay View Water Reclamation Facility. The majority of the site is currently zoned RS6 (Single-Dwelling Residential). Major Utilities such as this facility are permitted in most districts by Special Use Permit, meaning all upgrades/expansions to the facility currently require a Special Use Permit amendment. Major Utilities are permitted without the need for a special use permit in IG (General Industrial) districts. Should the property be rezoned entirely to IG (General Industrial) as requested, future upgrades/expansions will be permitted by right subject to site plan review (minor or major, depending on scope). The Division of Water Reclamation's efforts to upgrade the facility is expected to take more than ten (10) years to complete. This upgrade will include rehabilitation and/or replacement of several buildings at the plant, and replacement of several portions of the wastewater treatment process. This rezone will serve to greatly reduce permitting timetables to help speed along the plant's planned improvements without compromising the appropriate agency reviews.

Toledo 20/20 Comprehensive Plan

The Toledo 20/20 Comprehensive Plan targets this site for Utility. Utilities include infrastructure services provided by private and public agencies that include water, sanitary, electricity, natural gas, telephone, airports, and landfills. The proposed rezone is consistent with the Toledo 20/20 Comprehensive Plan as it will better accommodate the existing Major Utility use.

Staff recommends approval of the Zone Change from RS6 (Single-Dwelling Residential), IL (Limited Industrial), & IG (General Industrial) to IG (General Industrial) for 3900 Summit Street because it is compatible with the future land use per the Toledo 20/20 Comprehensive Plan.

PLAN COMMISSION RECOMMENDATION

The Toledo City Plan Commission recommends approval of Z-1022-24, a Zone Change from RS6 (Single-Dwelling Residential), IL (Limited Industrial), & IG (General Industrial) to IG (General Industrial) for 3900 Summit Street, for the following reason:

1. The proposed Zone Change is consistent with the Comprehensive Plan and the stated purpose of this Zoning Code (TMC§1111.0606(A) – *Review & Decision-Making Criteria*)

Respectfully Submitted,

Thomas C. Gibbons
Secretary
