

Hello Members of City Council,

I am writing you to consider voting in support of the on-street parking ordinance #O-145-19, scheduled to be addressed in today's city council session.

I am a business owner who chose to start and grow my business in downtown Toledo over 17 years ago. I believe this ordinance and its implications for improved traffic flow and increased "development" revenue is another significant step in continuing the momentum toward elevating this area to the dynamic place that my local employees – and clients visiting from around the region and globe – expect and appreciate.

Regards,

Kent Sackman
