

## **DPS 2021 Spring Crack Sealing Program \$250,000**

- This Ordinance will allow for the crack sealing of major arterial streets
- Crack sealing is the most efficient way to provide maintenance to streets at the lowest cost of any method and can extend the life of a roadway for several years before major work is required
- This work will be completed during the 2021 construction season
- The Division of Streets, Bridges & Harbor will continue using in-house labor for the crack sealing of residential and minor arterial streets
- Contracting out a portion of this work will allow for the Division of Streets, Bridges & Harbor to focus on other annual programs, such as repair of utility cuts, the patch and seal program, unimproved street overlay program, etc.
