RE: Elgin Street Sweeper Machine rental

The Division of Urban Beautification is requesting consideration and approval for a new contract and PO issued to the Jack Doheny Company for the rental of two (2) Elgin street sweeping machines.

This request is related to the rental of Elgin street sweeping machines to be used for the 2023 leaf collection season. Urban Beautification houses the street sweeping program, and all of our equipment used in that program is Elgin brand, which has regional distribution exclusively out of the Jack Doheny Company in Twinsburg, Ohio. The need to rent these machines is for an aging street sweeper fleet, several of which have been pulled from daily service in our program. UB is facing a shortage of sweeper machines, and it is critical these available rentals are secured for the upcoming leaf collection season.

Cost of renting two (2) Elgin sweeper machines is \$56,000, for the term of sixty-days (60), starting in November and extending through the end of December 2023. These sweepers will be located at the UB Central Ave. facility, operated by heavy equipment operator classified personnel.

Thank you.
