

DPS Golf Course 2020 Chemical Contract - \$70,000

May 5, 2020

- The turf of Toledo's three municipal golf courses require ongoing treatment
- Application of herbicides, insecticides, pesticides, and fertilizers is standard protocol for golf course maintenance
- Modest application of these items has been budgeted at up to \$70,000 for all three golf courses during the course of the 2020 season
- These applications will improve the playability of the courses
