

### **DPS 2021 CIP Tennis Court Resurfacing - \$100,000**

- City of Toledo Parks are home to 68 tennis courts with many of them in disrepair and some completely unplayable
- Based on past costs for this type of work, and depending upon the professional assessment of the current court conditions, the available funds could replace and/or resurface up to three tennis courts
- Recreation staff have conducted assessments of the tennis courts and determined that courts in the following parks would be the best candidates for repair work this year:
  - Pine Glen Park (2)
  - Crossgates Park (1)
- If costs for the first two parks allow, we will also resurface the single court at Bennett Park
