

Battery Replacement Ordinance

Bullet Points

- The Water Reclamation Plant utilizes battery packs in emergency situations to deliver, treat and process wastewater in accordance with the NPDES discharge permit issued by the Ohio EPA.
- The existing equipment and systems are not functioning satisfactorily and could fail prematurely if kept in their current state. Failure in any of the existing equipment or systems would threaten the operational integrity and jeopardize the NPDES discharge permit of the Water Reclamation Plant.
- This ordinance authorizes the appropriation and expenditure of up to \$400,000 for the purchase of equipment and construction services related to the Battery Replacement Project.
- The projects outlined above will address improvements necessary for continuing compliant operations at the Water Reclamation Plant.
