

## Sewer Equipment Purchase

### Bullet Points

- This ordinance authorizes the expenditure of \$432,600 from the Sewer Operating Budget for the purchase of various sewer cleaning, inspection, and maintenance equipment.
  - Including, but not limited to sewer CCTV equipment (cameras, crawlers, pole cameras, etc.) and other new technology to aid in the efficiency and safety of maintaining the WWCS.
  
- Funds are all in approved budget and appropriated in the budget to purchase this equipment:
  - 4000509SANCLN SANITARY – CLEANING \$207,500
  - 4000553STDSTD SANITARY – REPAIR \$151,460
  - 4000555STDSTD STORM – REPAIR \$73,640
  
- Examples are:
  - a remote-control mower to mow ditches and certain swales that have unsafe inclines.
  - Camera and crawler system for pipe patch crew.
  - Sewer Pole Camera.
  - Video Nozzles for Vactors to proof work and near instant determination of what obstructions they may hit (roots or gas line?) Without need to mobilize entire CCTV crew.
  - Additional 4” pumps to replace aging ones.
  - Locator wand(s).
