Re: Zoning Variance Application - Hardship Letter
For Parcel No. 20-17261

Dear Board Members,

During March 2022, Mr. Besesio, owner of the above cited parcel, decided that he wanted to plant various trees along his property to provide some privacy. He went to One Government Center to see what, if any, approvals, were required. He was told that he did not need a permit to plant the trees, but it was suggested that he go to the planning department. He met with Mathew Lascheid at the regional planning department and had a meeting with him about the trees, and Mr. Lascheid provided assistance and insight on how and where the trees should be planted. Thereafter, after considering the matter, Mr. Besesio sent Mr. Lascheid the proposed plan, which Mr. Lascheid impliedly approved. See attached a copy of the March 18, 2022, email exchange between Mr. Besesio and Mr. Lascheid.

Based on the fact that he did not need a permit and that he received direct and express assistance from the Toledo Lucas County Plan Commission in deciding where and which trees to plant, Mr. Besesio proceeded to plant the trees. Now, criminal charges have been filed, so a variance is required so that he can keep the trees where they are located.

Respectfully,

Jeffrey M. Stopar, Attorney
for Mohd Beseiso

Good afternoon,

Thank you for sharing the proposed landscape plan. I would recommend using a couple different species of evergreen trees to add visual variety and improve the appearance of the property. Using a combination of Arborvitae, Blue Point

Junipers, Moonglow Junipers, and other evergreen trees at slightly varied distances from the sidewalk and distances from one another will make the site look more natural and less like a "wall." Having slightly greater gaps between the trees will also make the site look more natural, allow more visibility and sunlight, and will help the trees to grow to full maturity.

I appreciate you reaching out, feel free to share any proposed changes.

Thank you Matt for your quick response and suggestion I agree with your direction and thoughts on this as using different kinds of trees will make look more appealing and natural I will share your suggestions with Landcape guy

Should I send you another drawing with the names of the other trees we are planing to use?

Thanks

Matt, as you can see we split the front in two different distances from the sidewalk with a combination of c
We kept the north and south sides the same as before as it's much smaller distance and not noticed much
