

DPS City Park Revitalization - \$477,500

- The City Parks “brand” is old and tired, and infrastructure has long been neglected. For a city that wants to reinvigorate its parks and welcome the community back into these spaces, a deliberate and intensive investment must be made
- The rebranding portion of this initiative is well underway, with the first of over 100 new park entry signs to be installed the week of February 1, 2021
- 2021 funds will continue the work of rebuilding/repaving of all park roads, paths and parking lots, and the replacement and addition of picnic tables, park benches and grills. Ninety (90) benches and picnic tables have already been installed as part of this initiative from 2019 funding
- 2021 will be the second year of funding for what is a five-year plan
- This investment addresses basic infrastructure. As these items are replaced, additional investments continue to be considered for existing shelters, playgrounds, court systems, and other features
- Approximate Pricing for 2021 Work:
 - Picnic Tables \$72,000 (1/5 total inventory of 380, plus 20 addt.)
 - Benches \$97,500 (1/5 total inventory of 523, plus 25 addt.)
 - Grills \$8,000 (1/5 total inventory of 68, plus 2 addt.)
 - Paving \$300,000 (~2 miles of paving)
- The remaining three years of the transformation will include replacing and augmenting the remaining inventory of picnic tables, benches, and grills, (1/5 each year), as well as an additional 2 ½ miles of paving each year, provided funding is in place
- Parks worked on to date:

Wilson Park	Macelwane Park
Inez Nash Park	Junction Park
Walbridge Park	Copland Park
Uptown Green	Library Village Park
Ottawa Park	
- Parks Scheduled for 2021, but not limited to:

Goodwin Park	Bennett Park
Feedback Park	Glenwood Park
Casey Jones Park	Smith Park
Pine Glen Park	Navarre Park
Crossgates Park	Ottawa Park
	Walbridge Park
