

Supporting Information for DPS Ballfield Improvements - \$80,000
October 1, 2019

It is widely recognized that the ballfields within City of Toledo parks have fallen into disrepair and are in need of immediate restoration to make them available for public use during the 2020 season. Upgrades for the following fields are already funded and in process or complete:

- Heatherdowns Park (2 fields)
- Harry Kessler Park (1 field)
- Sleepy Hollow Park (1 field)
- Willy's Park (3 fields)

Additional funding is needed to enter into contracts to support extensive drainage and grading work outlined below.

- Scott Park (2 fields),
- Copland Park (2 fields)
- Woodsdale Park (3 fields)

Funding will be from the Zorah W. Bowman Trust Fund. The Trust was created by a bequeath to the National Recreation and Parks Association to be used to benefit parks and recreational opportunities at City of Toledo parks and receives a yearly interest payment to the Trust.
