May 21, 2019

City of Toledo
Mayor Wade Kapszukiewicz
One Government Center, Suite 2200
Toledo, Ohio 43604

Dear Mayor Kapszukiewicz,

At the April 25, 2019 public hearing regarding proposed changes to downtown on-street parking in Toledo, Lucas County Commissioner, Pete Gerken, voiced concerns regarding the potential financial impact of these proposed changes on citizens who need to access the Lucas County Court House and other governmental services in the courthouse area. KWIK Parking currently operates numerous parking facilities in the area and would welcome the opportunity to work with Lucas County, other government agencies and all private businesses in the area to provide a competitive validation/voucher program. The validation/voucher program would allow government agencies and private businesses to eliminate the issue of pay parking for their customers and clients. We presently have over 50 validation/voucher customers in downtown including, The City of Toledo, 5th/3rd Bank, Hylant, Imagination Station and others.

We look forward to working with the City of Toledo, Lucas County and all downtown stakeholders to ensure that parking in downtown remains accessible and affordable.

Sincerely,

A handwritten signature in black ink, appearing to read "James G. Kniep", written over a horizontal line.

James G. Kniep
President

CC: Peter Gerken, Lucas County Commissioner
