Toledo Police Department
Lt. Jeff Thieman
525 N. Erie St.
Toledo, OH 43604

Dear Lt Thieman:

NC4 is happy to provide the following information to assist you in the preparation of a Sole Source Justification for our NC4 Street Smart™ solution. The NC4 Street Smart solution is a unique and proprietary Internet-based law enforcement application designed for officers and commanders in the field. It maximizes policing effectiveness with continuous updates of crime maps, bulletins, and the ability to share all relevant information quickly and providing patrol officers a daily-use tool for logging and quickly locating crime-related information and intelligence in real-time. The typical customers are city and county law enforcement agencies.

NC4 Street Smart leverages your existing CAD and RMS system as well as other existing data sources to greatly enhance the situational awareness of the officer and dramatically improve his/her analysis capability. Essentially NC4 Street Smart, in this context, improves intelligence analysis with the ability to integrate newly acquired on-scene information with existing information sources, fusing them in near real-time for dramatically improved awareness and intelligence. This cycle of leveraging RMS and other crime/criminal information sources traditionally is done with a "home office" intelligence analyst and can take hours or days to accomplish. NC4 Street Smart enables every officer to do this, in real-time dramatically compressing the crime-to-arrest cycle.

NC4 Street Smart makes your existing information immediately available including unstructured data such as the hundreds of bulletins that typically end up buried in emails and difficult to access. Using BLOG technology, officers are able to instantly share and discuss relevant incident information (location/suspect/evidence) across divisions and precincts.

This unique approach of leveraging existing systems and their data in near real-time and making this data immediately actionable at the field level eliminates the delays associated with typical law enforcement data systems and/or the dependence on specialized intelligence analysis teams.

NC4 Street Smart is currently deployed in several law enforcement agencies and has had a demonstrably positive impact on accelerating the crime to arrest cycle, getting criminals off the street and thus reducing crime in the cities that are using it.

Because NC4 Street Smart is a totally new and innovative approach to crime fighting, enabling the officer in the patrol car via Blogs and quick access to integrated data from multiple sources, to our knowledge, there is no direct competitive commercially available product or custom implementation that matches it.

NC4 is the sole owner of NC4 Street Smart software and has not authorized any third party to deliver maintenance or edit and modify the source code. Additionally, NC4 is the sole provider of the software.

If I can be of further assistance, please do not hesitate to contact me at (314) 258-0568.

Sincerely,

A handwritten signature in blue ink, appearing to read "Robert Wolf". The signature is fluid and cursive, with a large initial "R" and "W".
