Julie A. Gibbons
Assistant Clerk of Council
One Government Center
Toledo, OH 43604

Dear Julie,

We have received notice from the owners of our building, 3157 W. Central Avenue, of a public hearing with the consideration of a request for "Special Use Permit for a Residential Drug & Alcohol Treatment Center at 3132 Secor Road."

We would like to voice our opposition for this Use Permit. In an area with somewhat volatile people that already walk the streets close to and sometimes inside of our business, we do not feel comfortable with the addition of a voluntary drug & alcohol treatment center.

One of us currently possesses a full protection order on a mentally unstable person from the neighborhood that went off medication and made very real threats to our safety and, by extension, the safety of every person in this building. We are not interested in the invitation of any more wayward individuals close to our place of business regardless of what treatment they seek/need. Including our place of business, there are 3 establishments that serve some form of alcohol in this building. There is no security on the premises of this building and we have, in the past, dealt with numerous situations of unwanted or dangerous behavior.

To conclude, we simply want our opposition of this request of Special Use Permit to be heard and considered.

Sincerely,

Tina Kubiak Owner/President

Frederick L. Kodeih Owner/Vice President
