

DRAINAGE IMPROVEMENTS

Bullet Points

- This ordinance funds the construction and study of drainage improvement and replacement projects throughout the city.
- The work includes televising, lining, and replacement of storm lines along with a yearly program that targets nuisance and chronic drainage corrections, replacement of crumbling infrastructure and capacity improvements.
- It will also fund the development of a guidance document for ditch maintenance and assess upgrades and maintenance needed on ditches throughout the city.
- Funding for this program has been planned for in the 2021 Stormwater Utility Improvement Fund.
