

## **DPS 2021 SBH DEMOLITION EXCAVATOR PURCHASE - \$215,000**

- This request / purchase is for a replacement demolition excavator and fire suppression system
- Purchase is being requested through Rudd Equipment, who is the area dealer for Toledo. Request is to use Sourcewell Awarded Contracts for this purchase
- The request is for a Volvo EC220 machine, as the Division has had two (2) since 2012 and have experienced very few problems with them mechanically. Unfortunately, due to a fire in one of the machines, SB&H is now requesting to purchase a replacement.
- SB&H is still responsible for supplying support to TFD when requested
- With this excavator, a separate fire suppression system will be purchased and added by another vendor
- Purchase is expected to be delivered in August of 2021
