

Jeep Federal Credit Union

Three Parcel Purchase

- The three parcels we are proposing to sell have been in city or county Land Bank since 2012-2013
- The Jeep Country FCU has owned the adjoining lot for more than 30 years.
- The city-owned parcels are the only option for Jeep FCU's expansion – otherwise the site is constrained.
- The purchase of these parcels will be used for a significant expansion of the services available at the site: drive-through teller availability and a drive-through ATM.
- Preliminary plans include landscaping to improve the appearance of the lots and screen from nearby residential lots.
- Many of the employees in nearby Overland Industrial Park are eligible for Jeep FCU membership and this will increase services available to them.
