DORR JUNCTION REPAIR

Division of Sewer & Drainage Services

Calvin Harris (x2170)

(Revised)

Authorizing the expenditure of an amount not to exceed \$170,000 from the Sewer Operating Fund and Storm Water Utility Operating Fund for the emergency replacement of the combination sewer at Dorr & Junction; authorizing the mayor to enter into necessary agreements with Edward Kelly and Sons; waiving the competitive bidding requirement of TMC 187; and declaring an emergency.

SUMMARY & BACKGROUND:

The existing combination sewer and manhole near Dorr & Junction collapsed, causing a large sink hole in the street and blockage of the sewer. Emergency repair was necessary to ensure the health and safety of the public. Due to the depth (35') of the excavation and the size of the sewer (48"), the Division of Engineering Services was requested to work with a contractor to replace this section of sewer. Edward Kelly and Sons was the vendor hired to perform the sewer work. Sufficient funds are available within the Sewer Operating Fund and Storm Water Utility Operating Fund to pay for this emergency sewer replacement.

SECTION 4. That the Director of Finance is authorized to issue his warrant or warrants against the account codes listed in Section 1 above in a total amount not to exceed \$170,000 in payment of the above-authorized obligations upon presentation of the proper voucher or vouchers.
