Network Security Switch Replacements

Water Reclamation

DPU Deputy Director Patekka Banister (x1846)

Authorizing the appropriation and expenditure of \$45,000 from the Sewer Replacement Fund for the replacement of critical network hardware; authorizing the Mayor to enter into a contract with New Era Technology; waiving competitive bid requirements of TMC Chapter 187; and declaring an emergency.

SUMMARY & BACKGROUND:

This Ordinance authorizes the mayor to enter into a contract for the purchase of critical network switches.

The Cisco switches will be provided by New Era. New Era is an authorized Cisco partner and previously bid/contracted network services provider. New Era configures and replaces Cisco switches under the existing contract statement of work at no additional charge.

NOW, THEREFORE, Be it ordained by the Council of the City of Toledo:

SECTION 1. That the mayor is authorized to enter into a contract with New Era Technology for the purpose authorized in Section 1, upon terms and conditions acceptable to the Director of Law, and the Director of the Department of Public Utilities.

SECTION 2. That the appropriation of an amount not to exceed \$45,000 is authorized from the Sewer Replacement Fund, Account Code 6073-36000-4UC6723STDSTD, for the network switches; and further authorizing the expenditure of same.

SECTION 3. That this Council finds and determines it is in the best interest of the City to waive the competitive bidding requirements of TMC Section 187 for the reason that Cisco exclusively provides the switches specified in our current standard and that New Era Technology is the city's existing network support provider with a unique familiarity and understanding of the city's IT infrastructure and using other providers for this particular set of critical infrastructure projects would be a risk to network security and reliability.

SECTION 4. That the Finance Director is authorized to draw their warrant or warrants against the above-mentioned Account Codes in an amount not to exceed \$45,000 in payment of the above-authorized obligations upon the proper voucher or vouchers.

SECTION 5. That the disappropriation of any remaining budget to fund balance is authorized at project closeout.

SECTION 6. That this Ordinance is declared to be an emergency measure and shall take effect and be in force from and after its passage. The reason for the emergency lies in the fact that this Ordinance is necessary for the immediate preservation of the public peace, health, safety, and property, and for the further reason that this Ordinance must be immediately effective in order to timely engage New Era Technology to perform these upgrades that are critical to network security and reliability.
