Declaring the vacation of all of the existing right of way of Magnolia from the southeasterly right of way of vacated Water Street to the northwesterly Harbor line of the Maumee River and all of the full existing right of way of Olive Street from the southeasterly right of way of vacated Water Street to the northwesterly harbor line of the Maumee River and all of the full existing right of way of Elm Street lying southeasterly of the southeasterly right of way of Water Street prolonged to the northeast to the northwesterly harbor line of the Maumee River, in Toledo, Lucas County Ohio; and declaring an emergency.

SUMMARY & BACKGROUND:

The Council of the City of Toledo, by Resolution No. 604-23 adopted on November 8, 2023, declaring its intent to vacate all of the existing right of way of Magnolia from the southeasterly right of way of vacated Water Street to the northwesterly Harbor line of the Maumee River and all of the full existing right of way of Olive Street from the southeasterly right of way of vacated Water Street to the northwesterly harbor line of the Maumee River and all of the full existing right of way of Elm Street lying southeasterly of the southeasterly right of way of Water Street prolonged to the northeast to the northwesterly harbor line of the Maumee River, is intended to support future development of the Glass City Riverwalk into the Lower Town / Vistula neighborhood. Future development of this area shall be subject to Maumee Riverfront Overlay District review

guidelines, Summit Street Corridor Redevelopment Urban Neighborhood Overlay District review guidelines, and Special Use Permit review.

A large city detention basin is located directly adjacent to Olive Street on the parcel to the north east. Due to the importance of this detention basin the area must be kept clear for continuing maintenance. The intention of this vacation is to support future development of the Glass City Riverwalk. The Glass City Riverwalk is imagined to create new and revitalized riverfront greenspace connected by multi-use trails. With this intention in mind, Staff believes an easement following the current right-of-way will suffice in ensuring a clear area is maintained. This easement shall gain the approval of the Commissioner of Engineering Services as a condition of approval.

Summit Street Redevelopment Plan

The Summit Street Redevelopment Plan is a plan adopted by city council intended to recommend community and economic development initiatives to reverse urban and economic decline, link existing residential neighborhoods with the Maumee River, and devise market driven revitalization programs. The plan designates sites surrounding the requested vacation as “flexible” for future land uses and notes the importance of this area in connecting the northern neighborhood to the water. The proposed vacation conforms with the Summit Street Redevelopment Plan as the vacation of these streets will support future development of the Glass City Riverwalk into the Lower Town / Vistula neighborhood, connecting the neighborhood to the water.

Vistula Neighborhood Master Plan

The Vistula Neighborhood Master Plan, intended to guide development of the Vistula Neighborhood, designates the area along Summit Street and parallel to the river as Lower Town. Lower Town is intended to be a unique extension of the Core Business District, creating a diverse link between historic Vistula and new Downtown investment. Sites surrounding the proposed vacation are targeted for Parks and Open Space land use. The proposed vacation conforms with the Vistula Neighborhood Master Plan as the vacation of these streets will support future development of the Glass City Riverwalk into the Lower Town / Vistula neighborhood.

Toledo 20/20 Comprehensive Plan

The Toledo 20/20 Comprehensive Plan targets this area for Urban Village land use. The Urban Village land use is a specialized residential and commercial district that possesses characteristics of traditional neighborhood development, such as pedestrian orientation, zero building setbacks, mixed uses, and distinct architectural character. Public parks increase quality of life for nearby residents and are shown to be a valued amenity within neighborhoods. The proposed vacation is in character with traditional neighborhood development and is suitable within the Urban Village land use.
