**SUMMARY & BACKGROUND:**

This ordinance appropriates funds for the completion of a comprehensive study of the water distribution system to include a hydraulic model, an analysis to determine adequacy for meeting current and projected future water demands, and recommendations for needed improvements including location and sizing of elevated storage on the distribution system. The new study mandated by the Ohio EPA will incorporate recent improvements to the system, including advances in hydraulic and water quality modeling. Funding for this study is available from the Water Bond Improvement Fund (2018 Bond -BAN).

SECTION 2. That the mayor is authorized to accept bids and to execute the necessary contract(s) for preparing a Water Distribution General Plan upon such terms and conditions as shall be approved by the Director of Public Utilities and the Director of Law.
