DPU081523PLANTPUMPSMOTORS&VALVESREBUILD/REPLACEMENT

Water Reclamation

Christine Minor (x2624)

Revised

Authorizing the expenditure of \$500,000 from the Sewer Replacement Fund for the Plant Pumps, Motors & Valves Rebuild/Replacement Project at the Water Reclamation Plant; waiving the competitive bidding provisions of TMC Chapter 187 for proprietary parts and equipment; authorizing the Mayor to accept bids and award contracts for equipment rebuild with nonproprietary parts or equipment replacement and for professional, engineering, permitting, testing and construction services necessary for the completion of the Plant Pumps, Motors & Valves Rebuild/Replacement Project; and declaring an emergency.

SUMMARY & BACKGROUND:

The Bay View Water Reclamation Plant houses the traditional treatment facilities which can handle up to 195 million gallons per day, and the wet weather treatment facilities which can handle up to 205 million gallons per day. The Plant as well as the outside pump stations employ numerous pumps, valves, gates, motors, actuators, etc. Currently the condition of many of the above mentioned equipment used to maintain NPDES compliance are of great concern to the Division. Various improvements to these components throughout the facilities need to be undertaken to maintain a reliable wastewater treatment system. The Division intends to seek proposals for rebuilding and/or replacing pumps, valves, gates, motors, actuators as needed in order to maintain wastewater treatment compliance and the necessary redundancy of such equipment as needed at the Plant. Some equipment will require proprietary parts for rebuild and others can only be purchased from sole sources. For that, the Division is requesting a waiver of all competitive bidding provisions of TMC Chapter 187.

NOW, THEREFORE, Be it ordained by the Council of the City of Toledo:

SECTION 1. That the expenditure of \$500,000 is authorized from the Sewer Replacement Fund Account Code 6073-36000-4UC1723STDSTD for the completion of the Plant Pumps, Motors & Valves Rebuild/Replacement Project at the Water Reclamation Plant.

SECTION 2. That the Mayor is authorized to accept bids and award contracts for equipment rebuild, equipment replacement and for the professional, engineering, permitting, testing and construction services necessary for the completion of the Plant Pumps, Motors & Valves Rebuild/Replacement Project at the Water Reclamation Plant, upon terms and conditions approved by the Director of Public Utilities and the Director of Law.

SECTION 3. That that this Council finds and determines it is in the best interest of the City to waive the competitive bidding provisions of TMC Chapter 187 for equipment rebuild with proprietary parts or equipment replacement from sole sources.

SECTION 4. That the Finance Director is authorized to issue warrant or warrants against the Account Code above in the amount of \$500,000 in payment of the above-authorized obligations upon presentation of the proper voucher or vouchers.

SECTION 5. That this Ordinance is declared to be an emergency measure and shall take effect and be in force from and after its passage. The reason for the emergency lies in the fact that this Ordinance is necessary for the immediate preservation of the public peace, health, safety and property, and for the further reason that this Ordinance must be immediately effective in order to facilitate the Plant Pumps, Motors & Valves Rebuild/Replacement Project at the Water Reclamation Plant.

Vote on emergency clause: yeas _____, nays _____.
