DPS New Landfill Cell Development and Infrastructure Improvements \$525,000
Solid Waste
Ryan Murphy (x2640)/Paul M. Rasmusson (x7868)
Revised

Authorizing the expenditure of \$525,000 from the Capital Improvement Fund for engineering and construction at the Hoffman Road Landfill for the purpose of ensuring continued compliance with the landfill's new solid waste permit and new disposal cell development; authorizing the Mayor to accept bids and award contracts necessary to complete landfill development activities; and declaring an emergency.

SUMMARY & BACKGROUND:

This Ordinance authorizes the expenditure of funds from the Capital Improvement (CIP) Fund for landfill cell development activities at the Hoffman Road Landfill (landfill). Landfill development activities are required to be implemented to ensure continued compliance with the landfill's new solid waste permit and to provide sufficient constructed disposal capacity to ensure uninterrupted solid waste disposal for the city of Toledo. The city is taking a phased approach to complete this project and spreading resources over a period of three (3) years; this is year one.

To implement cell development activities and maintain compliance with Ohio EPA, activities required to be completed include, but are not limited to: 1) subcontracting cost for environmental consulting and engineering cell design, 2) expanding and upgrading the landfill Gas Collection & Control and Leachate Collection Systems (GCCS and LCS, respectively), 3) development and construction of additional storm water and erosion control measures, and 4) infrastructure improvements, replacement and upgrades. These activities are required to develop an additional landfill cell in accordance with the Ohio EPA approved Permit-to-Install (PTI) and local, state, and federal rules and permits.

NOW, THEREFORE, Be it ordained by the Council of the City of Toledo:

SECTION 1. The amount of \$525,000 is authorized for expenditure from the Capital Improvement Fund Account Code 5040-24500-8CP2219LNDINF for construction engineering, cell development plans and related construction to include preparing existing cell areas for final closure, GCCS and LCCS work, storm water and erosion control measures and other necessary infrastructure improvements, replacement and/or upgrade plans at the Hoffman Road Landfill.

SECTION 2. That the Mayor is authorized to accept bids and award contracts for the activities provided in Section 1 upon such terms and conditions that shall be approved by the Director of Public Service and the Director of Law.

SECTION 3. That the Director of Finance is authorized to draw his or her warrant or warrants against the above Account Code in payment of the above authorized obligations upon presentation of proper voucher or

vouchers in a total amount not to exceed \$525,000.

SECTION 4. That this Ordinance is declared to be an emergency measure and shall be in force and effect from and after its passage. The reason for the emergency lies in the fact that the same is necessary for the immediate preservation of the public peace, health, safety and property, and for the further reason that the Ordinance must be immediately effective in order for the City of Toledo to ensure that the Hoffman Road Landfill continues to operate in a manner supportive of continuous daily city services to the community and in compliance with the applicable regulatory requirements.

Vote on emergency clause: yeas _____, nays _____.
