- Forward Toledo Comprehensive Land Use Plan

## STAFF ANALYSIS

The Plan Commission staff is requesting a text amendment to TMC§1106.0401(A) *Review*, to allow multi-dwelling density bonuses to be granted via an administrative site plan review. In 2020, Plan Commission staff modified the CD-Commercial Downtown and CM-Mixed Commercial Residential Zoning District dwelling unit density regulations to allow more compact development/redevelopment in the downtown and midtown regions of Toledo. As written, in order for the bonuses to be granted, the applicant must apply for a Major Site Plan Review, which requires a public hearing.

Due to the increasing demand for housing, the City has committed to and adopted pro-housing development policies and legislation. Recent examples include the adoption of the Forward Toledo Plan, the elimination of minimum parking requirements, and permitting accessory dwelling units in Residential Districts. In order to further facilitate the development of housing in the CD-Downtown Commercial and CM-Mixed Commercial Residential Zoning Districts, staff is requesting the review for granting density bonuses in these Zoning Districts be administratively determined. Currently, TMC§11060401(A) creates an unnecessary barrier, as a list of amenities has been codified and the Planning Director is authorized to grant density bonuses for amenities not listed (TMC§1106.0402).

### Forward Toledo Comprehensive Land Use Plan

The Forward Toledo Plan calls for promoting a diverse variety of well-designed housing to meet the residential needs of all Toledo citizens. One of the strategies listed is to encourage a variety of housing sizes and units along major streets and business corridors. Removing the Major Site Plan Review requirement for granting dwelling unit density bonuses will assist with the implementation of this strategy.
