One-Year Action Plan

- HUD requires jurisdictions to complete an Annual Action Plan for each year within the Five-Year Consolidated Plan period.
- The Action Plan identifies the strategic projects and performance measures that will be carried out using the community's annual HUD funding allocation, along with any available prior-year or carryover funds.
- Projects included in the Action Plan are designed to address the needs, priorities, and goals established in the Consolidated Plan.
- If there are changes in identified needs, the addition of new projects, or the use of funding not previously included in the current Consolidated or Action Plans, the jurisdiction must complete a substantial amendment to those plans.

- In coordination with the Internal Review Committee (IRC), the CRC evaluates applications, participates in agency interviews, and provides funding recommendations for the CDBG and ESG programs.
