

District Improvement Program

Toledo City Council established the District Improvement Program (“DIP”) in 2018 to enrich the quality of life for individuals, families and business owners throughout the City and empower community members to take steps toward long-term improvements. The purpose of the District Improvement Program is to give community members an opportunity to have direct input and influence into the improvement of their neighborhoods. The emphasis of the program is to help fund capital projects not currently planned by the City that have community-wide benefit.

The continuation of the program is subject to appropriation of funding by Toledo City Council. Applications will be approved for capital projects ONLY. The projects will remain under ownership of the city.
