Letter of Intent / Hardship Statement

To:

City of Toledo Board of Zoning Appeals
One Government Center
Toledo, OH 43604

Subject: Hardship Variance Request – Carport Installation

Property Address: 2969 113th Street, Toledo, OH 43611

Dear Members of the Board,

I am submitting this letter in support of my application for a hardship variance to install a small carport at my residence. My property presents unique physical limitations that make compliance with the current zoning requirements impractical without relief from the Board.

The primary hardship is that my lot is unusually narrow and does not allow adequate space for any enclosed building or attached structure, such as a traditional garage, while maintaining the required setbacks. The limited width of the property creates a practical difficulty that prevents me from adding any form of covered parking or storage under the existing code.

As a result, there is currently no off-street parking available on the property, which forces me to rely on street parking. Street parking is often limited or unavailable, especially during times when nearby residents' vehicles occupy the spaces. In addition, my property lacks any enclosed or protected area for storing lawn equipment and outdoor tools, which currently must be kept exposed to the weather.

The proposed carport would provide necessary coverage and utility while maintaining a modest footprint and minimal visual impact on the surrounding neighborhood. This improvement would help preserve the use and value of my property without altering the character of the area.

I respectfully request approval of this hardship variance so that I may proceed with the installation of the carport.

Thank you for your time and consideration.

Sincerely,

Logan Keil
